Jordan's MSMEs are Viable But Financially invisible

Despite Representing **99.5%** of all businesses and over **60%** of the total workforce, Jordanian MSMEs remain largely excluded from formal finance.

Reference: National Financial Inclusion Staregy (2023-2028)

Most **MSMEs** cannot generate the financial evidence lenders need.

Why does this happen?

Fragmented Data

Most microenterprises operate without formal records, relying on cash transactions and fragmented documentation.

Lack of funding Readiness

MSMEs miss opportunities for funding, green financing, and lower-interest loans that could help them grow.

Uninformed Decisions

Jordanian MSMEs commit to financial decisions (hiring, borrowing, or expanding) without understanding the impact on their business beforehand.

60% of micro-enterprises received a smaller loan than they requested.

Hire, Expand and Borrow

Jordanian MSMEs make these calls without a financial model

Loan

Can I afford a loan
repayment?

Hiring

Can I hire one more
employee?

Expansion

Can I open another
branch?

Without a **Financial Digital Twin** every growth decision becomes a guess.

Our Solution

From financially invisible to funding ready

By the end of this journey, an MSME that was once invisible to lenders has a verified financial profile, a clear readiness score, and a **direct path to the financing it deserves.**

Deliverables

1 Live Financial Twin

- Transactions
- Cash flow
- Financial statements

In one real time dashboard.

2 Readiness Scores

- Credit Scores
- **Green** Scores

Instantly

3 Decision Simulation

- Monthly repayment impact.
- Expected profitability
- Recommended loan size

Modeled in real-time

4 Funding Match & Prescreening

A pre screened application matched to financing they qualify for.

One Dashboard. Smarter Decisions.

FinTwin's Impact

For MSMEs

Clarity

Monitor your financial health in real time.

Confidence

Test decisions before committing.

Readiness

Improve your scores with clear insights.

Growth

Make smarter decisions and grow.

For Banks & MFIs

Pre-qualified MSME
profiles, reducing
risk and costs.

For the Ecosystem

Better **Financial**
Inclusion.

Green Finance

Jordan's Green Taxonomy Framework, CBJ & MoENVJo, February 2026.

FinTwin scores and simulates your green path

Conventional SME loans

Typically 9% to 10.5% interest rate

Green lending products

Only 2.5% to 3.5% interest rate

Up to 75% lower interest rate

Applies to every sector, not just manufacturers

Restaurants, salons, retailers, service businesses. All qualify based on how they operate.

What We Use to Build It

Open Banking and Data

- JoPACC open banking
- JoFotara e invoicing
- Manual cash entry

Modeling Engine

- Cash flow forecasting
- Explainable credit scoring
- What if simulations

Security and Infrastructure

- End to end encryption
- Cloud native APIs
- Bank grade protection

Built on Jordan's real rails: JoPACC & JoFotara.

Target Users

Designed for Jordan's underserved MSMEs seeking growth and access to financing

Micro Enterprises

1-4 Employees
Under 100,000 JOD

- Home-based businesses
- Small retailers
- Local Service providers

Small Enterprises

5-19 Employees
100,000 – 1M JOD

- Restaurants & Cafes
- Retail Stores
- Cloud Kitchens

Medium Enterprises

20-99 Employees
1M – 3M JOD

- Manufacturers
- Contractors
- Established service Companies

Micro and Small enterprises represent the largest financing gap in Jordan, and the least served by existing tools. **Starting here maximizes impact.**

Competitors

Business Model

FinTwin operates on a Freemium model with **Freemium** revenue streams.

MSME Access Model

Micro Enterprises

Always Free

Small & Medium

**Monthly
Subscription**

Banking Partnerships

**Loan Pre-Screening
& Feedback Data**

Micro Enterprises served **Free**, aligned with CBJ's financial inclusion strategy 2023–2028.

MVP & Next Steps

The goal: move quickly from validated concept to a focused pilot with real MSME data.
